Nest Secure alarm system starter pack \$489 + Installation

Security from front to back. And everywhere in between.
Nest Secure is tough security on its own. But when you add Nest Cam security cameras, the Nest Hello video doorbell and Works with Nest products, your home can be covered from the outside in.

Nest Cam IQ outdoor \$399 + Installation

Nest Cam IQ is a powerhouse of brains and brawn. Weatherproof. Tamper-resistant. And seriously sharp. So it can help you know about a break-in before it happens. Good insight starts with incredible sight. Nest Cam IQ can detect a person up to 50 feet away, then alert you with a photo of who's there. With Nest Aware, it can even recognize a familiar face.

Nest Cam Outdoor \$189 + Installation

Nest Cam Outdoor has a built-in speaker and mic so you can scare off a suspicious visitor when you're out, or let the delivery man know to leave the package at the door. You can't always be watching your video feed. Nest Cam looks for motion and listens for loud sounds, like a boom or the crash from a window breaking. Then it can alert you with a photo from the event, and even save some pictures in the Nest app for three hours.

Nest Cam Indoor \$89 + Installation

Some cameras can't stay on all the time because they rely on batteries, so they only start recording when they sense motion. But if they miss something, you do, too. With a Nest Aware subscription, Nest Cam continuously records 24/7. And saves up to 30 days of footage securely in the cloud. So you never miss a thing.

Nest Protect \$199 + Installation

Nest Protect has been redesigned from the inside out. It has a Split-Spectrum Sensor, tests itself automatically and lasts up to a decade. It's also the first home alarm you can hush from your phone without any extra hardware required. And it tells you what's wrong and can even alert your phone. Meet Nest Protect. The smoke alarm other alarms look up to.

Nest Learning Thermostat \$239 + Installation

The Nest Learning Thermostat is the first thermostat to get ENERGY STAR certified. It learns what temperature you like and builds a schedule around yours. Since 2011, the Nest Thermostat has saved billions of kWh of energy in millions of homes worldwide.* And independent studies showed that it saved people an average of 10% to 12% on heating bills and 15% on cooling bills. So in under two years, it can pay for itself.
